

TODAY IN AI

- Teens adopt AI learning tools, showing modest daily use and early college planning features.
- OpenAI launches GPT6 with Intelligent UI, adding interactive visuals and custom tools to chat responses.
- Industry scrutiny grows as safety concerns and regulatory actions target AI products for youth.

TOP STORIES

1. Helping teens learn, plan, and shape the future of AI

OpenAI | Models | importance 10/10 | 07 Oct

OpenAI reports teens using ChatGPT for learning, with 2.7 M extra learning messages and 1.2 M using visualizations; average daily use under 15 minutes and new College Planner soon to aid applications.

2. GPT-6 and Intelligent UI for everyone

OpenAI | Models | importance 10/10 | 07 Oct

OpenAI introduces GPT6 with Intelligent UI, enabling text, graphics, buttons, forms, and interactive elements generated onthefly to improve answer clarity and taskspecific tools.

3. ChatGPT for Teens keeps teens talking, even during mental health crises

TechCrunch AI | Models | importance 8/10 | 07 Oct

Common Sense Media rates ChatGPT for Teens as an unacceptable risk, citing persistent engagement cues and inadequate crisis responses despite OpenAI's safeguards and parental controls.

4. ChatGPT is getting a lot more visual, with the launch of a new interface

TechCrunch AI | Models | importance 8/10 | 07 Oct

TechCrunch details OpenAI's Intelligent UI rollout, showing interactive diagrams, calculators, and maps in GPT6 responses, with usercontrolled visual density across subscription tiers.

5. Multimodal open d1 decision models for the edge

Hugging Face | Models | importance 8/10 | 07 Oct

Hugging Face releases openweight d13B and d1omni600M multimodal decision models, delivering sub50 ms edge inference and high accuracy across text, vision, and audio tasks.

6. ChatGPT is getting college planning tools

The Verge AI | Models | importance 8/10 | 07 Oct

OpenAI announces College Planner for ChatGPT for Teens, consolidating application deadlines, tasks, and financialaid steps; also adds multiphoto PDF capture and flashcard generation on iOS.
